

3x9m 50t Weighbridge/ Truck Scale Installation

Product Description :

1. Feature:

weighbridge platform adopts special technology, whole structure is good rigid, high intensity, nondeformable, no water, preventing weighing platform broken and collapsed. Select high quality painting, fine appearance platform, not rusty and discolored easily, waterproof, moistureproof, anticorrosive ability is stronger. Working life is long, investment return is high.

2. Material Selection:

- 2.1 Select high quality steel(Q235), up to the specifications of GB700_88.
- 2.2 According to different capacity, using different thickness steel plate.
- 2.3 Select fine quality painting, abrasion resistant, withstand voltage, nondiscolouring for long run.

3. U-shaped Beam structure:

- 3.1 Weighbridge platform adopts bridge design technology.
- 3.2 Simple structure suitable for automatic production.
- 3.3 Uniform weights, little deformation, significant Improvement of local strength than common steel platform.
- 3.4 Fine appearance, it is one of the most suitable electronic truck scale.

4. Standard parts:

Load cell, weighing indicator, junction box, signal cables, connection bolts, etc.

3x9m 50t Weighbridge/ Truck Scale Installation

Body size for option :

Weighbridge	Capacity	Sections	Parts	Load cell	TEU (20GP)
3x6m	20-50t	2	4	6	1pc
3x7m	20-50t	2	4	6	1pc
3x8m	30-60t	2	4	6	1pc
3x9m	30-60t	2	4	6	1pc
3x10m	30-60t	2	4	6	1pc
3x12m	30-60t	3	6	8	1pc
3x14m	50-100t	3	6	8	1pc
3x16m	60-100t	4	8	10	1pc
3x18m	60-120t	4	8	10	1pc
3x20m	60-150t	4	8	10	2pcs
3.4x14m	60-100t	4	8	10	2pcs
3.4x16m	60-100t	4	8	10	2pcs
3.4x18m	80-120t	4	8	10	2pcs
3.4x20m	80-150t	4	8	10	2pcs

Notice : we can make according to customer's requirements
